1. This action is responsive to communications: Amendment filed 04/28/2004.

Allowable Subject Matter

2. Claims 1-28 allowed.
3. The following is an examiner's statement of reasons for allowance: The Applicant's amendments and arguments were found to be persuasive. Additionally, Internet Explorer's MHT web archive files, (cited in the instant action), if used on a web site that contained frames could read on the claimed invention. However, a Internet search revealed the technology was not known at the time of the invention. Finally, the previously cited art, Kawabata (US006681368B1) does present a file with content and structure information, but does so by using "include" statements. Such a process does not allow creation with only accessing one file.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
